

**IN THE CLAIMS:**

Please add claims 15-16 and amend the claims as follows.

1. (currently amended) An input device, comprising:  
a housing;  
a first set of keys accessible on an outer surface of the housing, the first set of keys being associated with media playback control; and  
a second set of keys accessible on the outer surface of the housing, the second set of keys being associated with control of a computer operation,  
wherein the second set of keys includes a key associated with opening a file folder on a computer.
2. (original) The input device of claim 1, further including a third set of keys associated with control of a television.
3. (currently amended) The input device of claim 1, wherein the second set of keys includes a key associated with opening a file folder containing computer media files on a computer.
4. (original) The input device of claim 1, wherein the device comprises a keyboard.
5. (currently amended) The input device of claim 1, wherein the device comprises a hand-held remote control.

6. (original) An electronic system, comprising:
  - a pedestal base;
  - an enclosure mounted to the pedestal base;
  - a flat panel display disposed within the enclosure; and
  - a housing mounted on the pedestal base behind the display, the housing enclosing a processor-based system.
7. (original) The electronic system of claim 6, further comprising:
  - a pair of speakers disposed inside the enclosure with one speaker positioned on each side of the display.
8. (original) The electronic system of claim 7, further comprising:
  - a subwoofer disposed in the pedestal base.
9. (original) The electronic system of claim 7, further comprising:
  - a subwoofer disposed in the housing.
10. (original) The system of claim 6, further comprising:
  - a wireless input device, comprising:
    - a second housing;
    - a first set of keys accessible on an outer surface of the second housing, the first set of keys being associated with media playback control; and
    - a second set of keys accessible on the outer surface of the second housing, the second set of keys being associated with control of a computer operation.
11. (original) The system of claim 10, wherein the input device further includes a third set of keys associated with control of a television.

12. (original) The system of claim 10, wherein the second set of keys includes a key associated with opening a file folder on a computer.

13. (original) The system of claim 10, wherein the device comprises a wireless keyboard.

14. (currently amended) The system of claim 10, wherein the device comprises a hand-held remote control.

15. (new) The system of claim 12, wherein the second set of keys includes a key associated with opening a file folder containing computer media files on a computer.

16. (new) The system of claim 6, wherein the housing is substantially concealed behind the display.
